imMTrax Eligibility Designation <sup>6</sup>			Medicaid Recipient	American Indian or Alaskan Native	Not Insured	Underinsured-VFC	Underinsured-State supplied	Not Eligible Adult-Not Insured	Not Eligible Adult-Underinsured	Not Eligible

<sup>1</sup> State-supplied adult vaccine is only distributed to public clinics.

<sup>2</sup> Uninsured: A person who has no public or private health insurance.

<sup>3</sup> VFC/CDC Underinsured: A person who has health insurance, but the coverage does not include vaccines, only covers select vaccines, or coverage is capped at a certain amount. They are underinsured for the non-covered vaccines and vaccines received after exceeding the cap (FQHC/RHCs only).

<sup>4</sup> State Underinsured: A person who has health insurance that covers or partially covers vaccines, but the co-pay or deductible is considered not affordable by the patient/parent/guardian (county health departments only).

<sup>5</sup> CDC Fully Insured: Anyone with insurance that covers the cost of vaccine, even if the insurance includes a high deductible or co-pay, or if a claim for the cost of the vaccine and its administration would be denied for payment by the insurance carrier because the plan's deductible had not been met.

<sup>6</sup> The imMTrax eligibility designation “Unknown or Undetermined” is not allowed when using public vaccine.
